Khanmigo, your AI guide

Get a glimpse of the
future of learning.

Tutoring for all

By leveraging AI, we can bring the benefits of one-on-one tutoring—deep understanding, confidence, clarity, and empowerment—to all students.

 **Khanmigo**
AI power

This conversation is recorded and viewable by your parent and teacher.

Can you just tell me the answer?

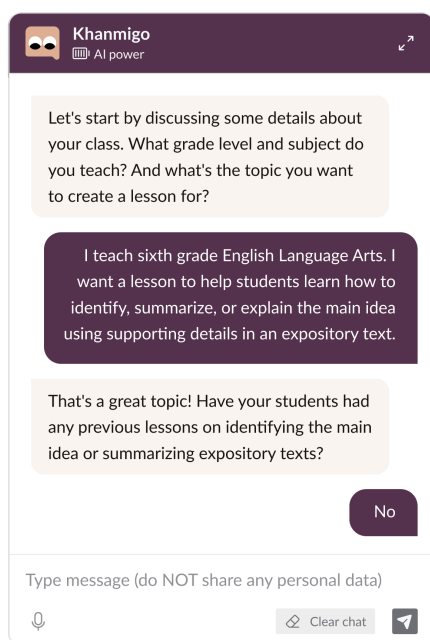

It's important that you learn how to do this yourself! What do you think you need to do to multiply 2 by $\frac{5}{12}$?

They need the same denominator.

That's a good thought, but in this case, you don't need to find a common denominator because you're multiplying, not adding or subtracting. What else could you try?

Empowering educators

Take your teaching to the next level with AI-guided lesson planning and insightful student feedback. Khanmigo frees up our educators' most limited resource —time.

Unlocking creativity

Khanmigo mimics a writing coach by giving prompts and suggestions to move students forward as they write, debate, and collaborate in exciting new ways.

Reimagining computer science

Learning to code has never been more accessible. Khanmigo's interactive experiences and real-time feedback will help learners hone their computer science skills.

Test the future

Step 1: Sign in to Khan Academy

By signing in and joining Khan Labs, you'll help us develop transformative learning tools like Khanmigo. Your feedback is crucial in shaping the future of education.

Step 2: Make a donation

Khan Academy is a nonprofit. We depend on donations to operate. We need your support to help us develop this and other online educational resources. If you want to test Khanmigo, you will be asked to donate \$20 monthly (or more if you like!) once you are selected from the waitlist. This

is an evolving project and the donation amount may change after June 15.

Step 3: Receive an email confirmation

You'll receive an email with next steps if you meet the Khanmigo testing requirements (ages 18 or older in the United States). If a donation is not possible now, [subscribe to our Khan Labs newsletter](#) for news about AI and future testing opportunities!

Who is Khan Academy?

[Khan Academy](#) is a nonprofit that wants to make education free and accessible for all. By joining Khan Labs, you can help us develop new features that will empower hundreds of millions of learners around the world! You'll test and provide feedback on new learning tools to help shape the future of learning.

Frequently asked questions

What's the time commitment for being a Khanmigo tester? ^

We are excited to start testing with you. There is no specific requirement for the amount of time you spend testing Khanmigo. You are welcome to test it as often or as little as you'd like while you are enrolled. During the testing period, we will be sending you emails that ask for your feedback, but responding to those emails is completely optional.

How soon will I know if I got accepted to test Khanmigo? Can I check on my waitlist status? v

How do I sign up my children to test Khanmigo? v

Why aren't you releasing Khanmigo to the public? v

Why is there a waitlist to test Khanmigo? v

Why is there a donation to test

Khanmigo?

Are people who donate the only ones
who can test Khanmigo?

How will I find out about new features
to test?
